

TOYO TIRES® Introduces the Proxes Sport A/S Ultra High-Performance Tire with Improved Wet/Dry Performance

Richmond, British Columbia – Toyo Tire Canada announces the all- new Toyo Proxes A/S designed for spirited drivers of sport and passenger cars. This premium, ultra-high performance all-season tire delivers dependable braking and handling in both wet and dry conditions.

Improved wet and dry performance is attributed to a newly developed specialized silica tread compound. It's dynamic tread taper and improved rib design creates more even contact pressure during braking and added stability while cornering. Multi-wave sipes minimize irregular wear and improve wet and dry performance, while alignment wear indicators promote even wear. A rim protector helps protect your valuable wheels.

The Proxes Sport A/S is available in 89 sizes ranging from 16"-22" providing an estimated 90% market coverage. Consumers can also have confidence in knowing the Proxes Sport A/S is included Toyo's Millenium warranty program with an 80,000 km warranty for "V & W" rated tires and a 65,000 treadwear warranty for "Y" rated sizes.
